

# Outdoor Camera, rechargeable

HmIP-COR

The Outdoor Camera, rechargeable enables reliable outdoor video surveillance. Live video and audio streams can be called up at any time via the Homematic IP app. The intelligent motion detection automatically records relevant events and sends instant push notifications. Thanks to battery operation, flexible outdoor installation is possible.

## TECHNICAL SPECIFICATIONS

Supply voltage of plug-in mains adapter (input)	100 – 240 VAC / 50 Hz
Power consumption of plug-in mains adapter (max.)	2.5 W
Supply voltage	5 VDC (SELV)
Current consumption	Max. 1,000 mA
Power consumption in idle state	800 µA
Power consumption during operation	350 mA
Nominal capacity of the battery	5200 mAh
Operating time in standby mode	up to 6 months
Degree of protection	IP65
Ambient temperature	-20 to +50°C
Dimensions (W x H x D)	38 x 93 x 79 mm
Weight	225 g
Micro SD card slot up to max. (FAT32 format)	256 GB/s
WLAN security	128 bit WPA/WPA2/WPA3, WPA-PSK, WPA2-PSK, WPA3-PSK
WLAN frequencies	2,412-2,472 MHz (max. power <20 dBm)
Resolution	3 MP
Min. brightness	Colour: 0.1 lux @ F2.0; black/white: 0.01 lux @ F2.0
Effective pixels	2304 (H) x 1296 (V)
Image sensor	1/2.8" 3 Megapixel CMOS
Lens	3.2 mm @ F2.0, 110°/60°/130°
Bit rate	32 kbps – 2 Mbps
Frame rate	1–25 fps
Compression method	H.264
2-way audio	Half duplex
Local and cloud storage	256 GB, 6 s (event)
PIR sensor detection range	110°, up to 10 m

## HIGHLIGHTS

- Flexible outdoor surveillance thanks to rechargeable battery
- Live video and audio available using the app
- Intelligent motion detection with push notifications
- Clear recordings thanks to day and night mode
- Local AI recognition of people

## APPLICATION AREAS

Security and alarms

## PACKAGE CONTENTS

Outdoor Camera, rechargeable  
 Operating manual  
 1x USB-C / USB-A cable, length: 0.5 m, white  
 Mounting accessories

## LOGISTICS DATA

Version	White
Product reference	162949A0
EAN code	4047976629497
Short description	HmIP-COR
Packing unit	20
Packaging dimensions	90 x 150 x 155 mm
Weight incl. packaging	635 g

### RELIABLE OUTDOOR SURVEILLANCE

The Homematic IP Outdoor Camera, rechargeable enables reliable outdoor video surveillance and can be positioned flexibly thanks to battery operation – completely without a connection to a power source.

### VIDEO MIRRORING

The camera adjusts the image orientation automatically so that the videos are displayed correctly regardless of the mounting position.

### RELIABLE MOTION DETECTION VIA PIR SENSOR FOR IMMEDIATE NOTIFICATIONS

The integrated motion detection continuously monitors the outdoor area and sends an immediate push notification whenever activity is detected.

### FLEXIBLE RECORDING OPTIONS FOR DIFFERENT PURPOSES

The camera can record around the clock to an SD card or save short event clips to the cloud. Users can thus choose between continuous or event-based storage. Both options are accessible directly in the app, so important recordings are available at all times.

### SUPERIOR IMAGE QUALITY DAY AND NIGHT

The Outdoor Camera, rechargeable delivers sharp, clear footage even in low or minimal light. Automatic switching between day and night mode ensures consistently high image quality at any time of day – without any need for additional light sources. The result is continuous, reliable surveillance.

### AI ANALYSIS FOR CUSTOM APPLICATIONS

The local AI recognition is able to detect persons directly in the device to reliably identify relevant events and minimise false alarms.
