# Colibri Quick Manual

**1.Installation** - place your Colibri on your desired location, connect the power supply and connect Colibri to the network..

**2. Download and install bOS Configurator** on your PC. You can get bOS Configurator on our web page: https://www.comfortclick.com/BOS/Software/BOSConfig

## 3. Connect to Colibri

3.1 **a) Connect locally** - make sure that your PC with bOS Configurator is connected to the same network as your Colibri than follow the steps below.

**b) Connect remotely** – if you are connecting to your Colibri remotely via the Internet, port forwarding should be enabled on your router. Port 443 (TCP) should be forwarded to your Colibri's local IP. More about port forwarding can be found in bOS Server manual on our web page.

3.2 **Open bOS Configurator.**

3.3 Click on the menu button on the top right corner and select **Add**.

3.4 Enter your Access ID, User name and Password

---

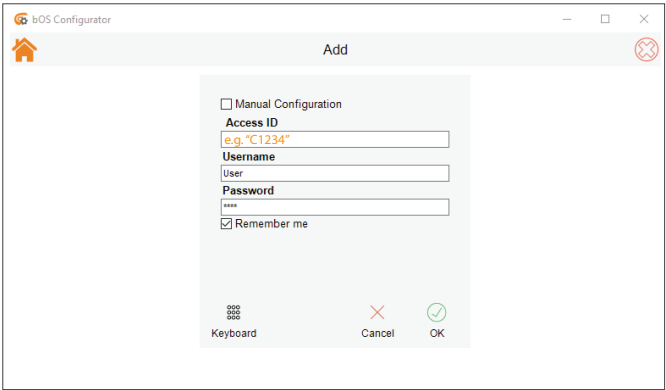

By default, Access ID is the **serial number of your Colibri.** You can find the serial number on the sticker on the bottom of your Colibri (e.g. C1234). Access ID is a unique name for accessing the bOS Server. This name enables adding profile and accessing your bOS Server, without the need of knowing it's IP address.

Enter Username: **User** and Password: **Pass** and click OK.

**4. Start creating your bOS configuration or open an existing configuration.**
Please check our support tools for more information on how to work with bOS: www.comfortclick.com/Support

⚠ The procedure below is optional; it is required only if you want to change your default Access ID and other access settings.

### Edit Colibri Access Settings

1. Open bOS Configurator.
2. Click **...** button under **Building** - **License**.
3. Click **Edit** button

---
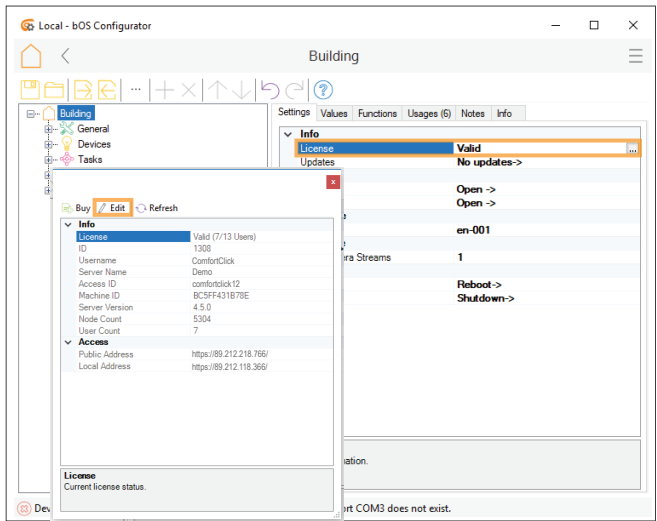

3. Login to your account on ComfortClick web page www.comfortclick.com

4. You can now change your **Server name**, **Access ID**, **Public Address** and **Local Address**.

5. You can also see the list of all your other Controllers and edit their settings under your account profile.
